

Project – Bookstagram

Progress Report-1

CSIS – 4495-002

Applied Research Project

Khushi Bhatt – 300394398

Work logs [After proposal]

Dates	Number of hours	Description of work
26/01/2026	3	Working on the frontend, specifically choosing a design theme and referring to different landing page styles, started working on the landing page.
27/01/2026	2	Working on the landing page, getting different assets for it.
1/02/2026	3	Started working on creating login and signup page,
2/02/2026	3	Created AuthProtection path and routes.
3/02/2026	3	Worked on navbar, footer, body, and testimonial added in the landing page.
4/02/2026	3	Continue working on the landing page, Login and sign up
5/02/2026	2	Finalized the UI for the landing page; focused on responsive design across different screen sizes
8/02/2026	3	Completed the frontend for Login and Signup; integrated form validation logic and added user feedback alerts for authentication errors.

09/02/2026	2	Worked on the report
------------	---	----------------------

Summary Description of work done during this reporting period:

I focused on building out the frontend components. I've implemented the routes for the landing page, signup, and login pages to make sure the navigation works correctly. I chose Tailwind CSS for the styling because I wanted the platform to have a clean, modern look that fits the "Bookstagram" vibe.

When I was going back and forth with 2 pages, I had navigation issues in the landing page. To resolve this, I restructured the project folders by moving elements such as the footer, navbar, testimonials, and photos into a dedicated component folder. This allows for better reusability and ensures the UI remains consistent when switching between routes.

Updating timeline –

- **10/02 – 12/02:** Integrating the frontend and backend; performing testing for the first sprint.
- **13/02 – 21/02:** Creating the Dashboard page, Profile page, Story Editor, and Book Editor.
- **22/02 – 28/02:** Integrating the frontend and backend for new features; testing and updating the system.
- **01/03 – 07/03:** Implementing the Google Gemini API to generate chapters, descriptions, and content.
- **08/03 – 14/03:** Adding social features to the dashboard, such as "Like" and "Follow" functionality.
- **15/03 – 21/03:** Implementing the download feature to export books in PDF or Word format.
- **22/03 – 28/03:** Final testing and data collection setup.
- **01/04 – 07/04:** Final evaluation and project documentation.

Repo Check in of Implementation completed: The files and folders I have check in are as follows:

- Implementation/frontend/bookstagram/src/App.css
- Implementation/frontend/bookstagram/src/App.jsx
- Implementation/frontend/bookstagram/src/index.css
- Implementation/frontend/bookstagram/src/main.jsx
- Implementation/frontend/bookstagram/src/assets/hero-img.png
- Implementation/frontend/bookstagram/src/components/auth/ProtectedRoute.jsx
- Implementation/frontend/bookstagram/src/components/landing/Features.jsx
- Implementation/frontend/bookstagram/src/components/landing/Footer.jsx
- Implementation/frontend/bookstagram/src/components/landing/Hero.jsx
- Implementation/frontend/bookstagram/src/components/landing/Testimonials.jsx
- Implementation/frontend/bookstagram/src/components/layout/Navbar.jsx
- Implementation/frontend/bookstagram/src/components/ui/Button.jsx
- Implementation/frontend/bookstagram/src/components/ui/Dropdown.jsx

- Implementation/frontend/bookstagram/src/components/ui/TextField.jsx
- Implementation/frontend/bookstagram/src/components/ui/Modal.jsx
- Implementation/frontend/bookstagram/src/components/ui/SelectField.jsx
- Implementation/frontend/bookstagram/src/context/AuthContext.jsx
- Implementation/frontend/bookstagram/src/pages/LandingPage.jsx
- Implementation/frontend/bookstagram/src/pages/LoginPage.jsx
- Implementation/frontend/bookstagram/src/pages/ProfilePage.jsx
- Implementation/frontend/bookstagram/src/pages/SignupPage.jsx
- Implementation/frontend/bookstagram/src/Utils/apiPaths.js
- Implementation/frontend/bookstagram/src/Utils/axiosInstance.js
- Implementation/frontend/bookstagram/src/Utils/data.js
- Implementation/frontend/bookstagram/src/Utils/helper.js

AI Usage –

AI Tool Name	Version, Account	Specific feature for which the AI tool was used	Value Addition What value did you add over and above what AI did for you?
Chatgpt	GPT/5, free version	How to implement AXIOS, what are best practices?	I watched tutorials to understand why Axios is used and resolved configuration errors during the setup process.
Gemini	Free version	List of websites for getting the buttons and images	Spend some time on getting the right images and buttons which will match the bookstagram vibe
Chatgpt	GPT/5, free version	How to add testimonials. Best way to have frontend repository.	I have spent some time on checking other websites for testimonials and working on testimonials along side watching YouTube videos and trying and testing designs by myself.

Chatgpt	GPT/5, free version	Navigation issue with 2 pages.	Restructured my project folders for longtime structure and solved the issue.
Chatgpt	GPT/5, free version	Error in the frontend display and coding error.	Tracing the paths and solving minor coding error that AI missed.
